All of the patinas are hand applied in a multi-step process, producing uniquely beautiful original pieces. Designed to replicate the look of naturally aged materials, the patinas will not prevent the natural aging process that occurs in an outdoor environment.

Like stains for wood, each piece will accept patinas in varying degrees of intensity, creating natural variations that add character and distinction to every piece. Even when applied with the same process, no two pieces will look exactly alike due to the composition of the cast stone, and the varying age of the pieces.

Due to the hand-application process and photography, actual colors may vary slightly from those depicted in these examples.
